

Bodylift is the Arena range created for all women to offer them the water experience they are asking for: freedom of movement, curves control, and a total shaping effect that enhances and flatters the figure.

STRUCTURAL CUTS__

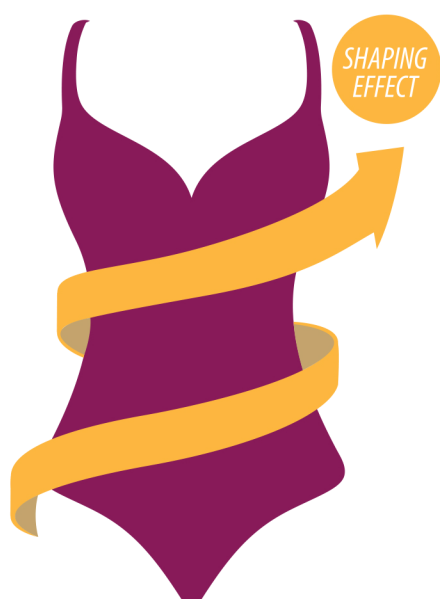

Artfully placed seams, bias cuts and complimentary detailing in the most technologically advanced entirely Italian made fabrics come together in ingeniously constructed suits.

INTELLIGENT SHAPING PANELS__

Strategically placed panels sculpt and embrace the body, enhancing its qualities as well as offering maximum control, comfort and breathability.

CHLORINE RESISTANCE__

Tested for long-term resistance to chlorine, for a longer suit life that retains both colour and shape.

PERFECT FIT

SUPPORT__

Designed to flatter every breast shape and size, Bodylift suits provide the support, security, and fit that women need to feel good and self confident. The inner cups, which have been developed to optimize water absorption, target the specific women's needs, from the full-bust figure through support and lift to the more petite chest thanks to its padding and cleavage enhancing design.

INNER BRA CONSTRUCTION

CLASSIC BRA

- Easy sizing and suitable for all busts types
- Comfortable wearability
- Soft against sensitive skin
- Provides basic support

UNDERWIRED BRA

- Wireless bra
- Comfortable for all bust shapes
- Lift and separate
- Medium support

SEMI PADDED BRA

- More suited for smaller to medium sized busts, not ideal for fuller busted ladies
- Pads create a smooth shape
- Enhance cleavage and push up
- Medium support
